

AN UNHYGIENIC OPTION

For CLEANING your WATER TANKS would be getting it MANUALLY CLEANED where A MAN TO YOUR UNAWARENESS WITH BARE FEETS, HAND AND SKIN DISEASES ENTERS INTO YOUR TANK CREATING HEALTH HAZARDS

We propose a safer and hygienic solution to health care for the first time in India

HYDRODYNAMIC PRESSURE JETTING WATER TANK CLEANING SYSTEM BY

Vardhan Water Tank & Sump Cleaning Services

Good water is essential to life. After having all the INHOUSE facilities like filters and purifiers etc. to treat water and prevent **BACTERIA**, But it seems that we have been ignoring the main source of **water contamination** i.e. underground & overhead water storage tanks where it all develops. Our team of engineers have developed a solution in eradication of the source in water borne diseases by cleaning water storage tank very scientifically and above all very hygienically with **NO HUMAN CONTACT TO WATER IN THE TANK** keeping it free from bacteria, moss, slime, rotten leaves, pebbles, insects etc. in the tank with the help of **HYDRODYNAMIC PRESSURE WATER TANK CLEANING SYSTEMS**.

METHOD USED

A high pressure combination of water and safe chemicals (approved by the health board) meeting safe drinking water quality standards i.e. without manual methods but with **HYDRODYNAMIC PRESSURE JETTING WATER TANK CLEANING** method, dirt, sludge and sediments are removed from the tank.

SAVES TIME AND EFFORT

Cleans your tank 15 times faster than conventional methods. **HYDRODYNAMIC PRESSURE JETTING WATER TANK CLEANING** operation is the only effective system since we remove contamination, dirt and substances from your tank with the help of a super sucker vacuum system.

THE ULTIMATE SOLUTION

To all problems of contamination that may take place while the water tanks are being closed.

We enjoy the valued dealership for machinery manufactured by **Kranzle** Pvt. Ltd. from **Germany**. The name **KRANZLE** associates with best in cleaning solutions in the world over & brings to India the latest and various combinations along with hygiene products and accessories to suit all kind of requirements. The cleaning concept like Hydro Blasters, Ultra Hydro Blasters, Intensifiers, Air Driven High Pressure Water Jet Cleaners, are the technology of today and is introduced in India by our bunch of professionals.

Considering you all as highly knowledgeable members/officers/engineers/businessmen etc we hope you to consider this new highly advance German concept & approach us and give the opportunity to work with you for our mutual benefits.

Awaiting your earnest & favorable reply
